

IBAC Corruption Prevention Strategy 2021–2024

OUR VISION: A public sector and police that acts with integrity for all Victorians.

Our modes of working

Will shape our approach to our corruption prevention and exposure work

Understand

Build a comprehensive picture of the corruption landscape, and better leverage data, intelligence and research to guide prevention work, measure impact and influence reforms.

Inform

Provide more accessible, responsive and tailored information and guidance to the public sector and community to raise awareness about the risks of corruption and how to prevent it.

Engage

Undertake targeted engagement with the public sector to promote integrity and build its capability to resist corruption.

Expose

Embed a prevention focus in corruption exposure work, including reviews, investigations and public hearings to enable a holistic approach to prevention.

Collaborate

Work closely with other Victorian integrity agencies to facilitate an efficient whole-of-system approach to building integrity and preventing corruption.

Our measures of success

Will be monitored by a range of indicators to measure impact

Corruption outcomes

IBAC's prevention work helps detect and prevent corruption and misconduct, change organisational practices, and contribute to improved community confidence

Trust & legitimacy

IBAC is trusted and perceived to be effective in its prevention work by the public sector and community

Efficiency

IBAC delivers prevention activities efficiently to reach a broad audience using the resources available

Quality

IBAC's prevention products and services are high quality and meet stakeholders' diverse needs

This is supported by

A whole-of-IBAC approach to prevention

The fostering and development of talent

A commitment to integrity and high ethical standards

Sufficient resourcing
